

ORACLE®

Oracle Adaptive Access Manager (OAAM)

## The Clear Solution For Preventing Online Fraud

Oracle Adaptive Access Manager Webcast Thursday, April 10, 12:00–1:00 pm (CST) [Click to Register Today!](#)

### Strong Authentication. Real-Time Fraud Prevention. For Your Business & Your Customers

**Fraud is not a myth.** Current security measures are ineffective, and after-the-fact detection does not help. Oracle Adaptive Access Manager (OAAM) provides strong authentication and proactive, real-time prevention to combat the increasing sophistication of Internet fraud.

**Sign up today for an Oracle OAAM webcast on Thursday, April 10 that will:**

- Provide an up-to-the-minute review of the risks and realities of Internet fraud.
- Explore the prevailing technological and regulatory issues that businesses must address.
- Show how other companies have leveraged OAAM solutions to protect customers and grow online commerce.

### Webcast Information

**Date:** Thursday, April 10, 2008

**Time:** 12:00–1:00 p.m. (CST)

**Register online:** [www.oracle.com/stopfraud](http://www.oracle.com/stopfraud)
